

For one day, ditch the internal combustion engine
and celebrate human-powered art and ingenuity

A vibrant, colorful poster for the Oxford Kinetics Festival 2012. The title 'OXFORD KINETICS' is at the top in large, stylized letters, with 'FESTIVAL' and '2012' below it. The date 'APRIL 1' and time 'NOON-3:00' are on the right. The location 'MILLETT HALL OXFORD, OH' is in a red cloud-like shape. The poster features various illustrations of people riding mechanical bikes, a large gear, and a lightbulb. On the left, there are three steps: 'STEP 1' with a magnifying glass, 'STEP 2' with a lightbulb, and 'STEP 3' with a bicycle. A large red arrow points from the bottom left towards the text box on the right. The text box contains information about the 'The Scramble' event and a website link. The bottom left has the 'artswave' logo and the text 'creating community through the arts'. The bottom right has the 'HAPPEN northside' logo and the 'OXFORD COMMUNITY ARTS CENTER' logo.

OXFORD KINETICS

FESTIVAL

2012

APRIL 1

NOON-3:00

**MILLETT HALL
OXFORD, OH**
rain or shine!

STEP 1

STEP 2

STEP 3

HUMAN-POWER!

Dust off your monster bike, kit out your catapult, and suit up in your best mechanical sculpture so you can earn your kinetic street cred. Join in the main event: **The Scramble** — a mad mess of people-powered pedaling, Tinker Toy testosterone, and gear-head swagger. Anything goes — as long as it doesn't have a motor. Bring your bike; bring the kids, and bring your game face. Just don't bring any gas-guzzling gizmos, steam engines, or new-fangled nuclear contraptions.
